Dear Classes of 2021 and 2022,

Congratulations! The conferral of your degree is a milestone achievement that brings great pride to your family, friends and the University of Maryland.

We celebrate this occasion with incredible excitement and enthusiasm. Facing unprecedented circumstances, your classes at Maryland demonstrated great perseverance with intellectual and personal accomplishments as well as positive contributions to our community and beyond.

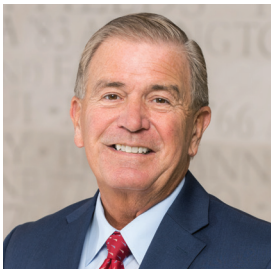
The faculty, staff and administration of the university are confident that you are prepared to move fearlessly forward and continue on a path of excellence. Now is the time to make your mark in addressing the grand challenges of our time, from public health and racial injustice to climate change, refugee migration and threats to civic engagement.

Along the way, take heart in your new family of Terp alums, more than 400,000 strong. We are all connected by our love for this university and our dedication to using our knowledge and experiences to better serve our neighbors and our world.

My very best wishes to you, your family and friends.

Sincerely,

Darryll J. Pines
President, University of Maryland
Glenn L. Martin Professor of Aerospace Engineering



On behalf of the University of Maryland Alumni Association, congratulations on your graduation! I want to welcome you into our family of 400,000+ Terps.

You and your graduating class have been put to the test, and you've passed with flying colors. You are now officially a graduate of the University of Maryland, and I want to take the opportunity to make you a promise: Your Alumni Association is going to be here for you, because we are fearlessly committed to your success.

I encourage you to make a commitment to your alma mater by becoming a member of your Alumni Association. By becoming a Terp for life, you will leave your own legacy and show your support for the University of Maryland.

Your Alumni Association and your membership will help you stay in touch with friends you made on campus, prepare you for your career through networking and professional development, and keep you informed about alumni and campus news. You can also take advantage of our newly expanded member benefits, including exclusive virtual learning opportunities and a Member Masterclass series that helps you develop both personally and professionally.

It is my wish that as alumni, you will wear our colors proudly and continue to demonstrate to the world the high-quality education Maryland provides. In turn, Maryland will continue to educate the country's brightest students, pursue cutting-edge research, encourage innovation and entrepreneurship, explore the arts and defend our athletics titles. As a student, and now as a graduate, you will always be a Terp and always have a home at Maryland at the Samuel Riggs IV Alumni Center—be sure to visit us when you come back to campus in the years ahead.

Now go forth with the strength of your Maryland degree, and remember that your Alumni Association is here to help you stay active, stay informed, stay connected and stay fearless.

Go Terps!

Jeff Rivest '75
President, University of Maryland Alumni Association Board of Governors

Order of Commencement

MAY 20, 2022 / 12:00 P.M. / MARYLAND STADIUM

Speaker Biographies

M PEASE
STUDENT SPEAKER

Seeing the challenges that faced fellow students before and during the COVID-19 pandemic, particularly for marginalized groups, M Pease (they/she) wanted to find ways to help at the University of Maryland. A Gaithersburg native and nonbinary Asian American, they began to see how racism, transphobia, homophobia and other forms of bigotry were interconnected across identities and tried to improve students' lives through research and advocacy.

From serving in the University Senate to working as a resident assistant, Pease did just that on the way to earning a Bachelor of Science degree with high honors in psychology, minors in Asian American studies and public leadership, and a 4.0 GPA.

"Seeing what we as students can accomplish toward social justice and equity gives me hope not only for the university's future but our future as a larger society," she says.

Pease, a member of University Honors and the First-Year Innovation and Research Experience, took their interest in diversity, equity and inclusion into and outside the classroom. As a researcher in the Department of Psychology's Gender, Culture and Health Laboratory and the School of Public Health's Prevention Research Center, Pease led and supported investigations on LGBTQ+ and Asian American minority stress and mental health. Her thesis on trans mental health was published in the journal *Psychology of Sexual Orientation and Gender Diversity*.

Pease was a teaching assistant for four classes across psychology, English and Asian American studies, and a member of the APIDA Social Justice Task Force. They were also an administrative director, workshops director and peer counselor for the Help Center, providing confidential over-the-phone peer counseling and establishing an outreach program to educate the campus community.

"As time went on, M really stepped into their power," says psychology Professor Monica Kearney, who mentored Pease as a teaching assistant. "We are so fortunate to have such an empathic and passionate student."

Among many honors, Pease was recognized by Omicron Delta Kappa as the Col. J. Logan Schutz Leader of the Year and Gen. Russell E. Dougherty National Leader of the Year, won the 2021 Spirit of Maryland Award, and was twice named a resident assistant of the year.

Pease will continue their studies by pursuing a doctorate in counseling psychology at the University of Maryland.

ALYTHIA VO
UNIVERSITY MEDALIST

Growing up in a family of immigrants, Alythia Vo was often the bridge between her older relatives and solutions to the difficulties of daily life in America. Seeing how hard it could be for her Chinese grandparents to navigate the health system, as well as how meaningful it was anytime a doctor showed empathy and understanding, Vo dedicated herself to studying medicine and how to end health care disparities.

"It really shaped the direction I wanted to go," she says. "Navigating those challenges really opened my eyes to all the barriers immigrants face in this country."

Vo is graduating with bachelor's degrees in biological sciences and Spanish language, literatures and cultures. A member of the Integrated Life Sciences program in the Honors College, Vo is ending her University of Maryland career with a 3.98 GPA. Following a gap year conducting research, she plans to pursue medical and Master of Public Health degrees.

As an undergraduate research assistant at UMD, the University of Maryland School of Medicine, Johns Hopkins University School of Medicine and National Institutes of Health, Vo worked on projects such as child mortality in Mali and the impact of COVID-19 on the contraceptive and reproductive care of Spanish-speaking women in Baltimore. Vo was also a health policy intern with the U.S. Senate's Committee on Health, Education, Labor and Pensions and a community outreach worker for Latinx populations in Langley Park, Md., for a COVID-19 vaccine trial at the University of Maryland, Baltimore's Center for Vaccine Development and Global Health.

Vo volunteered for community health clinics and initiatives as well as the university's Food Recovery Network and Campus Pantry and the Capital Area Food Bank in D.C. She was a member of the Alpha Phi Omega service fraternity and Vice President for Student Affairs' Student Advisory Council, and president of the Asian American Student Union and Taiwanese American Student Association.

"There are some people who seem to manufacture time in which to do more than most of us could even attempt. Alythia is one of those people," says Robert Chester, a senior lecturer and interim director of U.S. Latina/o Studies in the Department of American Studies. "Alythia is a fine example of a young American, the child of immigrants, who is unflinching in her desire to employ her talents for the betterment of those around her."

JEFF KINNEY '93
COMMENCEMENT SPEAKER

An illustrator and best-selling children's author, Jeff Kinney '93 is the creator of the worldwide *Diary of a Wimpy Kid* phenomenon that has sold hundreds of millions of books and been adapted for both film and television.

Born and raised in Maryland by a family of UMD graduates, he is a proud Terp who originally dreamed of becoming a newspaper cartoonist. Kinney studied computer science before earning a degree in criminology and criminal justice. He gained notoriety at UMD for his "Igdoof" strip in *The Diamondback* that satirized College Park life through the adventures of its titular awkward character.

He worked software and web design jobs while trying to get a syndication deal and collecting ideas for a book about a middle-school weakling named Greg Heffley. Kinney started publishing daily installments on Funbrain.com in 2004—garnering up to 70,000 readers a day—and two years later signed a multi-book deal with publisher Harry N. Abrams Inc. to turn *Diary of a Wimpy Kid* into a book series.

The first book, packed with Kinney's distinctive stick-figure doodles, was an instant bestseller in 2007, and exponential success followed for each entry in the series. A permanent fixture on *The New York Times, USA Today, The Wall Street Journal* and *Publishers Weekly* bestseller lists, Kinney has sold more than 250 million copies around the world in 79 editions in 65 languages. He has also served as producer on several films and most recently worked on a new, animated adaptation of *Diary of a Wimpy Kid*, book 1, which premiered last year on Disney+ and already has a planned sequel.

Kinney is also the creator of Poptropica, an online site where millions of kids have explored and played games to learn history and develop problem-solving techniques. It has been named one of *Time* magazine's 50 best websites.

Kinney, who *Time* has also listed among the most influential people in the world, has won numerous national and international awards, including two Children's Choice Book Awards and six Nickelodeon Kids' Choice Awards for Favorite Book.

He and his wife have two sons and own an independent bookstore and cafe in Massachusetts named An Unlikely Story.

ALMA G. GILDENHORN '53
HONORARY DEGREE RECIPIENT

For over two decades, Alma G. Gildenhorn '53 has been one of the University of Maryland's foremost benefactors and an active participant in many areas of university life.

Her motivation was her gratitude to Maryland for the outstanding education, life and leadership skills that she received as a recipient of a scholarship. Her "gift back to give forward" has informed all of her activism for Maryland.

With her degree from the College of Education, she taught school early in her marriage to Joseph Gildenhorn '51.

When they re-connected to their alma mater, their first gift was a Regents Scholarship. As they became more involved, their focus was on projects within the College of Arts and Humanities—the Clarice Smith Performing Arts Center and the Gildenhorn Institute for Israel Studies. Gildenhorn chaired the campaign for the performing arts center, known as The Clarice. The Recital Hall within the center bears their name and is known as a "jewel box" of the facility for its state-of-the-art design and equipment.

In 2006, the Gildenhorns established the Institute for Israel Studies, again within the College of Arts and Humanities. The institute enjoys a national and international reputation for excellence in its field. Many thought leaders have been hosted by the institute through lectures and publications.

"These gifts demonstrate the Gildenhorns' savvy leadership as both philanthropists and strategic thinkers who understand that a sound investment in the arts and humanities has great potential to bring increased stature to the entire university," says Bonnie Thornton Dill, dean of the College of Arts and Humanities.

Gildenhorn serves on the University of Maryland College Park Foundation Board of Trustees. In addition, she has been a co-chair of the university's last three successful fundraising campaigns: *Bold Vision, Bright Future*; *Great Expectations*; and *Fearless Ideas*.

Community involvement has been extremely important to her throughout her life. The recipient of many awards for community service, she is currently honorary trustee of the Kennedy Center and serves on its Executive Committee; lifetime trustee of the Aspen Institute; commissioner of the National Portrait Gallery; trustee of the Sibley Hospital/Johns Hopkins Medicine Foundation Board, with the Joseph and Alma Gildenhorn Institute for Bone and Joint Health at the hospital; and vice chair of the Fellowship Selection Committee of the Wilson Center.

Gildenhorn received the Tyser Award from the university, and in 2015, she and her husband were the first couple to be inducted into the Alumni Association's Alumni Hall of Fame.

THE HONORABLE JOSEPH B. GILDENHORN '51
HONORARY DEGREE RECIPIENT

A steadfast friend of the University of Maryland, Joseph B. Gildenhorn '51 has played an essential part in the establishment, expansion and advancement of myriad university initiatives and assets, including serving as chairman of the University of Maryland College Park Foundation Board of Trustees.

Born in Washington, D.C., Gildenhorn graduated with a degree in business administration from the University of Maryland, where he met his wife, Alma '53. After college, Gildenhorn earned a law degree from Yale Law School, where he was a member of the editorial board of the *Yale Law Journal*. He was a founding partner of Brown, Gildenhorn and Jacobs, a law firm specializing in real estate. He was also a founding partner of The JBG Companies, a Maryland-based real estate development and management company that has developed dozens of buildings across the greater Washington metropolitan area. Along with the co-founders of The JBG Companies, Gildenhorn was inducted into the Washington Business Hall of Fame in 2018.

From 1989-93, Gildenhorn served as U.S. ambassador to Switzerland. Before that, he was vice chair of the DC National Bank and the Franklin National Bank.

Along with his wife, Gildenhorn created the Alma G. and Joseph B. Gildenhorn Endowment, which offered vital support to the establishment of The Clarice Smith Performing Arts Center. The couple also named the center's Recital Hall, known for its bright acoustics, which hosts the high-profile Dean's Lecture Series as well as concerts, performances and special events. In 2006, the Gildenhorns founded, within the College of Arts and Humanities, their namesake Institute for Israel Studies, one of the nation's preeminent centers of its kind.

In addition to his involvement at the university, Gildenhorn served for 11 years as chairman of the board of the Woodrow Wilson International Center for Scholars, one of the nation's leading think tanks. Currently, he is on the board of the Council of American Ambassadors, where he serves as treasurer and is also a trustee of the Diplomacy Center Foundation at the U.S. Department of State.

In 1996, Gildenhorn received the university's coveted Distinguished Alumnus Award. He and his wife also became the first couple elected to the Alumni Association's Alumni Hall of Fame in 2015, recognized both for their generosity and deeply held belief that a University of Maryland education has tremendous power to open new doors and opportunities for students.

"Terps through and through, Joseph and Alma have lent their time and talents to Maryland for many years," says Brodie Remington, vice president for University Relations.

BARRY P. GOSSETT '62
HONORARY DEGREE RECIPIENT

For more than 50 years, Barry P. Gossett '62 has tirelessly supported the University of Maryland, whether in boardrooms or the stands at Terp basketball and football games.

Along with his late wife, Mary, Gossett has been a benefactor to schools, colleges and programs across campus, including the A. James Clark School of Engineering; Robert H. Smith School of Business; Department of Physics; University Libraries; Jiménez-Porter Writers' House; and Omicron Delta Kappa honor society.

Gossett has been a member of the Terrapin Club since 1971, providing unwavering support for Maryland's student-athletes, and in 1998, the football team house adjoining the stadium was renamed the Gossett Football Team House. In April 2018, the Gossetts made a historic gift to Maryland Athletics to establish an innovative, three-part support model for the academic success of student-athletes through the Barry and Mary Gossett Center for Academic and Personal Excellence.

He is the retired chairman and CEO of Baltimore-based Acton Mobile Industries, suppliers of portable offices, construction trailers and commercial modular buildings. Prior to Acton, he served as chairman and CEO from 1969-2002 of Williams Scotsman Inc., a national company in the modular building and mobile office industry. He is a charter member of the Modular Building Institute, where he served on its board of directors and as president, received its Outstanding Achievement Award and was elected to the MBI Hall of Fame.

A past chairman of the University System of Maryland Foundation and the University of Maryland College Park Foundation, Gossett previously served on the Board of Regents of the University System of Maryland. He sits on the board of the University of Maryland Medical Center Foundation, Maryland Attorney Grievance Commission, Board of Rosedale Federal Saving and Loan Association and Babe Ruth Museum, and on the executive board of the Baltimore Area Council of the Boy Scouts of America.

Doctoral Degrees

The doctoral degree is the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally doctor of audiology, doctor of medicine, juris doctor, doctor of pharmacy and doctor of veterinary medicine. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees on March 9, 1841.

AUGUST 2021

DOCTOR OF EDUCATION

Christina M. Harris Education
Increasing Reading Achievement and Narrowing the Reading Achievement Gap for Students With Disabilities Through Effective Evidence-Based Core Instruction, Early Identification and Prevention and Tiered Interventions

Janani Perera
Mary V. Schwartz
Calli M. Yancey

DOCTOR OF EDUCATION

John P. Difato Education
Addressing the Disproportionality of Black/African-American Students in Advanced Placement (AP) Classes

Marcella L. Gruver Education
An Investigation of the Impacts of State-Mandated Benchmarks on Special Education Eligibility Identification of African-American Students

Nate L. Hall Education
High-Quality Induction to Ensure High-Quality Teaching

Brodell J. McNeil III Education
An Examination of Patterns in Educators' Demographics and Factors in the Discipline Decision-Making Process That Lead to an Office Discipline Referral

Alice L. Swift Education
An Investigation of the Use of Restorative Practices Among Middle School Teachers as a Means to Reduce Disproportionate Office Discipline Referrals for Subjective Offenses for Black Males in Middle School

Brandi M. Taeschner Education
Structured Literacy: Teacher Understanding and the Instructional Implications for Reading Achievement

Sandra G. Vecera Education
Preparing School Leaders to Meet the Needs of Students in Poverty

DOCTOR OF MUSICAL ARTS

Nicole J. Boguslaw
Composers and Disability: Prevalence in Classical Music

Skyler J. Foster
New, Forgotten and Rarely Performed Works for Bass Trombone and Trombone Ensemble or Woodwind Quintet

David Henry
Rachmaninoff's Performance Style as Heard in His Recordings: An Artistic and Technical Survey

Kevin D. Hertlein
The Influence of Thomas Everett on Trombone Literature: 1970 to Present

Rizgar A. Ismael
Piramagrun

Timothy L. Keeler
Chanticleer and the Art of Unconducted Ensemble Singing

Natnaree Suwanpotipra
The Use of Folkloric Elements in Piano Music by Grieg, Macdowell, Ravel, Bartok and Prokofiev

Cameron L. Wentz
Quintet for Flute and String Quartet

Saeha Youn
Piano Suites From 1900 to the Present

DOCTOR OF PHILOSOPHY

Israel G. Abebe Behavioral and Community Health
Assessing Undergraduate Students' Judgement of Sexual Activity Consent Seeking and Coercive Behaviors, and Attitude Toward Establishing Sexual Consent

Eric B. Adams Chemistry
Directed Flow Measurements Using the Spectator Plane With the CMS Detector in the 2018 Pb-Pb Run At $\sqrt{s_{nn}}$ *= 5.02 TeV*

Samira S. Aghayee Biophysics
Developing New Experimental Techniques to Understand Neuronal Networks

Ha R. Ahn Counseling Psychology
The Effects of Subtle Racial Discrimination on Mood: Examining the Mediating Role of Cognitive Appraisal for Asian Americans

Azin Al Kajbaf Civil Engineering
Leveraging Machine Learning and Uncertainty Assessment for More Robust Coastal and Climate Hazard Estimation

Casey J. Archer Teaching and Learning, Policy and Leadership
Thank You for Being a Friend: The Relations Between Friendship Network Centrality, Reading Achievement and Executive Functioning in Elementary School Students

Walter Arias Ramirez Mechanical Engineering
A Multi-Fidelity Approach to Sensitivity Estimation in Large Eddy Simulations

Alec W. Armstrong Marine, Estuarine and Environmental Sciences
Ecological Significance of Dissolved Organic Matter Composition and Reactivity in Depressional Freshwater Wetlands

Hagar Attia Communication
Protect, Preserve and Restore: Fundamentalist Arguments in American Discourse

Leyla Babaturk School Psychology
Reciprocal Relations Between Perceived Stress and Literacy Achievement in School-age Children Over Time

Benjamin K. Barnes Engineering Materials
Chemical Sensing With a Tube-in-a-Tube Nanostructure

Hulya Biler Aerospace Engineering
Experimental Investigation of Force Transients During Gust Encounters

Sachraa G. Borjigin Civil Engineering
Multi-Domain Semantic Models and Reasoning for Safety-Critical Urban Operations

Joel Bostic Marine, Estuarine and Environmental Sciences
Investigating Watershed-Scale Controls on Streamwater Nitrate Export Using Stable Isotopes

Mary K. Bramlett English Language and Literature
Genres of Memory and Asian-American Women's Activism

Kiante D. Brantley Computer Science
Expert-in-the-Loop for Sequential Decisions and Predictions

Max Brauer Policy Studies
Income Inequality and Household Debt: Assessing the Relationship Using Household Panel Data

Abby L. Bull Physics
Integration and Competition in Immune Cell Models

Jennifer L. Burris Teaching and Learning, Policy and Leadership
More Than Thoughts and Prayers: Social Justice Leadership Preparation

Donovan L. Buterakos Physics
Studying Many-Body Physics With Quantum Dot Qubits

Baturalp Buyukates Electrical Engineering
Age of Information in Large Networks, Distributed Computation and Learning

Lautaro Cabrera Teaching and Learning, Policy and Leadership
Computational Thinking in the Elementary Classroom: How Teachers Appropriate CT for Science Instruction

Robert D. Campana Government and Politics
American Populism, Political Information and Trade Opinion

Marina Cascaes Cardoso Information Studies
User Onboarding Design in Citizen Science: A Path to Grow Engagement and Participation

Rosa Castro Zarzur Agricultural Economics
Intended and Unintended Impacts of Government Programs in Agriculture and Education

Andrew P. Ceruzzi Aerospace Engineering
Development of Two-Point Focused Laser Differential Interferometry for Applications in High-Speed Wind Tunnels

Shouvanik Chakrabarti Computer Science
Quantum Computing for Optimization and Machine Learning

Rohan Chandra Computer Science
Towards Autonomous Driving in Dense, Heterogeneous and Unstructured Traffic

Dheeraj Chaudhary Economics
Essays on the Real Effects of Financial Frictions

Amanda K. Chen Art History
On the Threshold: Visualizing Ambiguity in the Art and Experience of Ancient Roman Doorways

Yen-Hsiang Chen Civil Engineering
Design of a Real-Time Adaptive Multi-Path Signal Control System for Arterials of Mixed Traffic and Heavy Turning Flows

Hung Y. Cheung Economics
Essays on Consumer Choice and Social Preference

Jeff D. Chi Civil Engineering
Cross-Industry Adoption and Sustainability Practices in Facility Management

Jun Chu Health Services Research
Examining the Effects of Public Policy Changes on Health Insurance Coverage, Access-to-Care and Health Status of Immigrant Children

Erin Clancy Special Education
An Investigation Into the Relationship Between Co-Teaching and Student Engagement

Merijke E. Coenraad Teaching and Learning, Policy and Leadership
Techquity in the Classroom: Designing to Include Equity and Social Justice Impacts in Computing Lessons

Sergio M. Cofre Martel Reliability Engineering
A Physics-Informed Neural Network Framework for Big Machinery Data in Prognostics and Health Management for Complex Engineering Systems

Charles A. Conway Family Science
Evaluating Immigrant-Specific Adverse Childhood Experiences as a Social Determinant of Health Among Latino Immigrant Families

Master's Degrees

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts and Master of Science degrees in fields other than agriculture.

AUGUST 2021

Bachelor's Degrees

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. Maryland Agricultural College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts and Bachelor of Science degrees in 1862.

Note: Latin Honors published in the commencement program are tentative and unofficial, pending the submission and calculation of all final grades for the semester of commencement.

ACADEMIC AWARDS

Departmental Honors - August

With Honors In

Aerospace Engineering
Mark Charles Aukerman

Art
Samuel Lewis Moore
Milan Gabrielle Warner

Biology
Xiao Lin Kuang

Community Health
Adishree Nayak

Computer Science
Christopher Branch Nalty

Geology
Alexis Morgan Yaculak

History
Helyn Ziporah Steppa

Mechanical Engineering
Cole Matthew McKenney
David Martin Nehf
Maxwell Ryan Scott

Departmental Honors – December

With High Honors In

Biology
Ethan Sean Cheng
Andrea Natalia Manalili Orpia
Jonah Kendahl Mittlestadt

Community Health
Louise Elizabeth Daigneault

Geology
Joseph Thomas Malin

Physics
Eliana Sarah Krakovsky

With Honors In

Community Health
Marisa Gwyn Arsenault
Sara Jane Hatfield
Casey Rose Ottenwaelder

Computer Engineering
Joshua Kevin McKelvey

Mechanical Engineering
Zachary Kenneth Chase
Rebecca Marie Collier
Annina Marie Commins
Neel Bhavesh Godhani
Aditya Gupta
Christian Dale Jewell
Ellie Mae Litwack
Kira Ann Loshin
Ryan Ian Matheu
Benjamin Andrew Molnar
Lauren Patrice Murphy
Allison Marie Peters
Graham Lawrence Vinyard
Sarah Rose Warshawsky
Keegan Patrick Wolf

Scholar Athletes*

Men's Baseball
Ryan Buck

**This designation is given to varsity athletes graduating with a GPA of 3.0 or higher*

Men's Football
Justin Brown

Men's Soccer
Ryan Blumberg
Justin Gielen
Brett St. Martin

Women's Field Hockey
Mayv Clune
Brooke Deberdine
Noelle Frost
Kyler Greenwalt

Women's Soccer
Hope Lewandoski
Alyssa Poarch
Emily McNesby

Women's Track & Field
Sarah Daniels

National Honor Societies

Special Recognition

SENIOR MARSHALS

The Senior Marshal Program began in 1991 as an opportunity to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administration and staff for their outstanding accomplishments and contributions to the University of Maryland. We are proud to recognize these truly remarkable students.

Winter Senior Marshals

Uchenna Michael Aduaka
Shivani Amin

Intercollegiate Athletics Facilities
Memorial Chapel
Public Safety
Senior Council
Stamp Student Union
Transportation Services

An extra special thanks go to the Office of the Registrar and the Graduate School.

A heartfelt thanks go to the many volunteers who assist with the campus-wide and individual college and school ceremonies. These efforts are greatly appreciated

THE "DO GOOD" CAMPUS

The University of Maryland commits to becoming a global leader in advancing social innovation, philanthropy and nonprofit leadership with its Do Good Campus.

Our Do Good Campus effort amplifies the power of Terps as agents of social innovation and supports the university's mission of service. We're working to ensure all University of Maryland students graduate equipped and motivated to do good in their careers, their communities and the world.

We:

- Created the Do Good Institute to serve as the campus hub of social impact and innovation;
- Developed a Do Good Challenge and Do Good Accelerator to scale up the impact of student projects and ventures;
- Cultivate new research on philanthropy, civic engagement and nonprofits;
- Expand opportunities for students to learn about and practice giving back.

Our Do Good campus will lead to a Do Good world.

For more information, visit *dogood.umd.edu*.

The May 2022 class roster comprises degree candidates from the graduate and undergraduate programs at the University of Maryland, College Park. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative. The university reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of the Registrar.

Hail! Alma Mater

Hail to thee, Maryland!

Steadfast in loyalty,

For thee, we stand,

Love for the Black & Gold

Deep in our hearts we hold,

Singing thy praise forever,

Throughout the land.
